SUMMARY

Frontend Developer with 4+ years of experience in building scalable web and mobile applications using React, Next.js, Vue.js, and React Native. Passionate about crafting seamless UI/UX, optimizing performance, and ensuring responsive design across all devices. Skilled in collaborating with cross-functional teams to deliver high-quality, user-centric digital products.

TECHNICAL SKILLS

- Frontend: React, Next.js, Vue.js, HTML, CSS, Tailwind CSS, Ant Design, Mantine UI
- State Management: Zustand, Jotai, Redux Toolkit
- API & Data Fetching: REST API, RTK Query, React Query, GraphQL, Apollo Client
- Backend & Database: Laravel, CodeIgniter, MySQL
- Programming & Tools: JavaScript, TypeScript, PHP, Git

PROFESSIONAL EXPERIENCE

Frontend Developer - Solusiku   Oct 2024 - Present

- Developing a lender dashboard website to enhance user experience by providing real-time data visualization and streamlined loan management.
- Building and optimizing an internal back-office system to improve operational efficiency through workflow automation and enhanced data management.

Frontend Developer (Part Time) - Hayman Capital   Jun 2024 - Present

- Developing and optimizing a P2P Lending app to enhance functionality and improve user experience.
- Ensuring seamless performance by continuously improving features, maintaining code quality, and efficiently resolving 10+ critical and 50+ minor issues.

Frontend Developer - Kelas Pintar   Jun 2023 - Oct 2024

- Developed and optimized the Kelas Pintar corporate website & mobile app, Learn, Practice & Test (LPT) platform, and blog, improving communication, promotion, and business management.
- Enhanced user experience (UX) by ensuring full responsiveness across devices, integrating REST APIs, and collaborating with the design team for seamless functionality.
- Maintained high code quality through best practices, clean coding, and rigorous debugging —successfully resolving 50+ critical issues and 700+ minor bugs efficiently.

Frontend Developer - PT Adyatma Cendekia Sinergy Abadi   Aug 2021 - May 2023

Key Projects & Contributions:
- **Open Banking System (PT Cakrawala Data Integrasi)**
  - Implemented responsive UI components for a smooth banking experience.
  - Ensured seamless backend integration, improving system stability.
  - Maintained and optimized code for scalability and performance.

- **SPPBE System (PT Pertamina)**
  - Developed real-time vehicle tracking by integrating Google Maps.
  - Implemented web sockets for instant notifications, enhancing communication.
  - Optimized UI/UX, ensuring a user-friendly interface for operational efficiency.
- **Cari Parkir (PT Astra Internasional, Tbk)**
  - Developed a comprehensive dashboard for managing content, financial discounts, and various administrative tasks.
  - Translated UI/UX designs into a fully functional and responsive interface within tight deadlines.
  - Integrated APIs to enable real-time data synchronization between the frontend and backend.
  - Ensured clean, maintainable, and scalable code while implementing best practices and optimizing performance.

EDUCATION

Dian Nusantara University   **Sep 2022 - Present**
Bachelor's Degree in Informatics Engineering (In Progress)

Telkom School Malang   **Jun 2018 - Jul 2021**
Vocational High School Diploma in Software Engineering
